

VIJAYA BANK
BASEL II DISCLOSURES DOCUMENT AS AT 31st MARCH 2010

TABLE DF-1
SCOPE OF APPLICATION

Not applicable as the Bank does not have any group entities where consolidation of accounts takes place, though we have an affiliate - Visvesvaraiiah Grameena Bank. Our Bank has no subsidiary.

TABLE DF-2
CAPITAL STRUCTURE

Qualitative Disclosures							
(a) Summary information on the terms and conditions of the main features of all capital instruments, especially in the case of capital instruments eligible for inclusion in Tier 1 or in Upper Tier 2		Bank's authorized capital is enhanced from Rs.1500 crores to Rs.3000 crores on 10.11.2009. The issued & paid up equity capital is Rs.433.52 crores. During the year 2008-09 the Bank has (in March 2009) received capital support of Rs.500 crores from Govt. of India, in the form of Perpetual Non-Cumulative Pref. Shares. The Bank has also raised Rs.1650 crores in the form of Unsecured Redeemable Subordinated Debts in the form of Promissory note, of which Rs.1500 crores is reckoned for Tier II capital. The terms & condition of above debt instruments are as under:					
Details of outstanding Tier I/Tier II issues of the Bank as on 31.03.2010							
Sl. No	Issue Details	Amount raised (Rs. cr.)	Tenor	Date of Allotment	Due Date	Coupon Rate (Payable annually on 31 st March)	Rating
1	Tier I Perpetual Non-cumulative Preference Shares	500.00	Perpetual	31.03.2009	-	Floating – 100 bps over Repo rate to be adjusted annually based on the prevailing Repo rate on the relevant date.	- NA -
2	Upper Tier II Series I	300.00	180 months with call option at the end of 10 th year	20.03.2007	20.03.2022	10.10% p.a. with step up of 50 bps after 10 th year, if call option not exercised	PR1+ by CARE
3	Upper Tier II Series II	300.00	180 months with call option at the end of 10 th year	17.03.2008	17.03.2023	9.45% p.a. with step up of 50 bps after 10 th year, if call option not exercised	PR1+ by CARE
4	Lower Tier II Series III	150.00	90 months	08.11.2002	08.05.2010	7.50% p.a.	PR1+ by CARE
5	Lower Tier II Series IV (Interest rate swap with Barclay's Bank)	250.00	123 months	15.03.2005	15.06.2015	7.15 %p.a.	PR1+ by CARE
6	Lower Tier II Series V	250.00	120 months	01.08.2006	01.08.2016	9.25% p.a.	PR1+ by CARE
7	Lower Tier II Series VI	200.00	123 months	31.07.2007	31.10.2017	9.50% p.a.	PR1+ by CARE
8	Lower Tier II Series VII	200.00	124 months	31.12.2007	30.04.2018	9.35% p.a.	PR1+ by CARE
TOTAL		Rs.2150 crores					

Quantitative Disclosures	Rs.in Crore
(b) The amount of Tier 1 capital	
Paid up capital:	433.52
Perpetual non-cumulative Pref.shares:	500.00
Reserves:	1376.19
Surplus:	853.76
Innovative instruments	Nil
Other capital instruments	Nil
Adjustment for illiquid investment	(-) 35.00
Amounts deducted from Tier 1 capital:	
Other intangible assets (Deferred Tax Asset)	(-) 150.39

Total Tier I capital	2978.08

(c) The amount of Tier 2 capital (net of deductions from Tier 2 capital):	
(i) Revaluation Reserve	140.25
(ii) General Provision	<u>223.41</u>
	363.66
(d) Debt Capital instruments eligible for inclusion in Upper Tier 2 capital:	600.00
• Total amount outstanding	600.00
• Of which amount raised during the year	Nil
• Amount eligible to be reckoned as capital funds	600.00
(e) Subordinated debt eligible for inclusion in lower Tier II capital:	900.00
• Total amount outstanding	1050.00
• Of which raised during the year	Nil
• Amount eligible to be reckoned as capital funds	900.00
(f) Other deductions from capital if any:	NIL

Total Tier 2 Capital:	1863.66

(g) Total eligible capital: Tier 1 Capital:	2978.08
Tier 2 Capital:	<u>1863.66</u>
	4841.74

**TABLE DF-3
CAPITAL ADEQUACY**

<p>Qualitative Disclosures</p> <p>(a) A summary discussion of the Bank's approach to assessing the adequacy of its capital to support current and future activities.</p>	<p>As per RBI directives on Basel II, our Bank has adopted 'Standardised Approach' for Credit Risk, 'Standardised Duration Approach' for Market risk and 'Basic Indicator Approach' for Operational risk w.e.f. 31.03.2009. For assessment of additional Capital to support the current and future activities, the Bank follows ICAAP policy, put in place by the Bank. ICAAP is being reviewed on a half yearly basis in order to maintain adequate capital above the regulatory minimum on a continuous basis taking care of the future growth in business.</p>

TABLE DF-4
CREDIT RISK – GENERAL DISCLOSURES

<p>Qualitative Disclosures</p> <p>(a) The general qualitative disclosure requirement with respect to Credit Risk, including</p> <ul style="list-style-type: none"> • Definitions of past due and impaired (for accounting purposes) • Discussion on the Bank's Credit Risk Management Policy 	<p>The Credit Risk Management Process of the Bank is driven by sound system, procedures and policies. While the Board of Directors & Risk Management Committee of the Board gives directions, the Credit Risk Management Committee consisting of senior executive ensures its implementation.</p> <p>Policy guidelines for Credit Risk Management, Collateral Management and Credit Risk Mitigants (CRM), Ratings etc. are put in place, wherein the set of objectives, scope and nature of risk reporting, its measurement systems, policies, strategies to be adopted in containing / minimizing the risk through CRM, processing steps, developing monitoring and supervision mechanisms for the continuing effectiveness of mitigants have been detailed.</p> <p>To move towards advanced approach of Basel II norms, the Bank has taken up implementation of integrated Risk Management System through six solutions for Credit Risk Rating, Credit Risk, Market Risk, Operation Risk, ALM & FTP.</p> <p>The Bank's policy on IRAC (Income Recognition & Asset Classification) norms is in tune with guidelines issued by the Reserve Bank of India, as amended from time to time. Ninety days delinquency norm is being followed in classifying the assets as 'performing' & 'non-performing' assets. The entire IRAC data has been subjected to audit. Adequate provisions as prescribed have been made on both Standard Assets (performing) and Non-Performing Assets. Apart from these, the Bank has created a general floating provision and additional provision for restructured assets.</p> <p>Definition of impaired assets (for accounting purposes):</p> <p>An asset becomes non-performing when it ceases to generate income for the Bank when (a) interest and/or installment of the loan remains 'overdue' (*) for a period of more than 90 days in respect of term loan (b) the account remains 'out of order' (#) for a period of more than 90 days, in respect of operative limits such as Cash Credit (Hyp./Misc.) (c) the bill remains 'overdue' for a period of more than 90 days in cases of bills purchased /discounted (d) the interest charged during any quarter, not fully serviced within 90 days from the end of the quarter (e) the installment of principal or interest thereon remains overdue for 2 crop seasons in the case of short duration crop loans and if installment of principal or interest thereon remains overdue for one crop season in the case of long duration crop loans, as far as agricultural loans are concerned (f) 90 days from the date of crystallization of non-fund based commitments expire.</p> <ul style="list-style-type: none"> • 'overdue' means any amount due to the Bank under any credit facility, if not paid on the due date fixed, or on crystallization of non fund based commitment. <p># 'out of order' means the outstanding balance remains continuously in excess of the sanctioned limit/drawing power or if there are no requisite amount of credits continuously for 90 days or where credits in the account are not enough to cover the interest debited prior to 90 days.</p>
---	---

	<p>Discussions on Bank's Credit Risk Management Policy:</p> <p>The Bank has formulated a comprehensive Credit Risk Management Policy and constituted various committees such as Credit Risk Management Committee, Basel II Working Group etc. to address host of management techniques which help the Bank in identifying, measuring, monitoring and controlling of credit risks by taking into account both external and internal factors affecting the credit risk. The Bank has fine tuned the Risk Management Policies & Lending Policy, to include credit appraisal standard like benchmark/hurdle ratios on key financial indicators, internal ceilings, prudential norms for large credit proposals, standards for loan collateral, portfolio management, credit concentration, Loan Review Mechanism / Credit Audit, special review of high value borrowal accounts (Comprehensive Credit Monitoring Report), risk concentration / monitoring and pricing based on risk ratings, and review based on risk ratings etc, besides covering exposure ceiling for sensitive sectors such as capital market, real estate and commodity sector. A comprehensive Recovery Policy of the Bank is also put in place and revised from time to time.</p>

TABLE DF-9

OPERATIONAL RISK

Qualitative disclosures

As stipulated in the RBI final guidelines on Basel II, the Bank is adopting Capital charge calculations for Operational Risk as per 'Basic Indicator Approach'. The Bank has set up Operational Risk Management Committee to identify, monitor and control all operational risks apart from measures to mitigate such risks, by putting in place detailed policy guidelines on BCP, BCDRP, managing risks on 'outsourcing', KYC norms and Anti-Money Laundering guidelines. The Bank has identified 'Risk Monitors' at executive level and 'Regional Risk Officers' at senior officers level at Regional Offices to take care of all the requirements in respect of risk management areas.

Further the Bank has put in place the following measures to manage, control and mitigate operational risks:-

- Book of Instructions/Manuals are being updated at periodic intervals besides revising various policies on review at regular/annual level.
- Loss Events on account of fraud and other aspects are being reported to Operational Risk Management Committee on quarterly basis
- The Bank has put in IT Security Policy and has implemented various IT security related solutions like Anti Virus for Data Centre and Branches, Fire Walls, Encryption Technologies, Intrusion Detection Systems, Router based security policies, Network Security Policies. The Bank has implemented policies relating to application access controls, password security, guidelines to avoid misuse of passwords, etc. in the Core Banking scenario. The Bank has been subjecting its network and data centre facilities to vulnerability assessment and penetration testing to find the loop holes if any and taking steps to correct. The Bank has been subjecting all its third party software applications to the process of IS audit to continuously improve the confidentiality, integrity, and availability of all its IT resources.
- In order to mitigate the probability of system disruptions resulting in the business discontinuity, the Bank has implemented various levels of disaster recovery and business continuity mechanisms and measures specially for critical applications like Core Banking System, Network Facilities, ITMS, IRMS, HRMS.
- Risk Based Internal Audit (RBIA) is made applicable for all the branches in the year 2008-09 based on the revised RBIA format.
- Our Bank has achieved 100% coverage under the Core Banking Solution (CBS) and adequate training is imparted to staff members both on CBS technology & risk management aspects.
- Risk & Control Self Assessment (RCSA) process is being put in place and Key Risk Indicators are being identified through the assistance of external consultant for the Integrated Risk Management System (IRMS) project
- The process of building a comprehensive data base of loss Events / losses due to operational risks is initiated so as to move towards Advanced Measurement Approach at a later date.

Quantitative disclosures:**Calculation of capital charge on Operational Risk**

=====

AVERAGE OF GROSS INCOME FOR THE LAST 3 YEARS**(Rupees in Crore)**

		31.03.07	31.03.08	31.03.09

5.	Realised Profit / Loss from the sale of securities in the HTM category	0.00	0.00	221.51
6.	Income from insurance activities and insurance claims in favour of the Bank	0.00	0.00	0.00
7.	Extraordinary / Irregular item of income and expenditure	10.50	0.00	0.00
8.	Reversal during the year in respect of provisions and write offs made during the year	42.40	5.37	54.61
9.	Income from the disposal of items of movable and immovable property	-0.07	6.00	0.23
10.	Income from legal settlements in favour of the Bank	0.00	0.00	0.00
11.	Sub Total	52.83	11.37	276.35
12.	GROSS INCOME FOR THE PURPOSE OF COMPUTATION OF OPERATIONAL RISKS	1293.91	1350.78	1547.26

Average of 3 years gross income = Rs.1397.32 Crores

**CAPITAL CHARGE FOR OPERATIONAL RISKS = Average of gross
Income * alpha (15%)**

= Rs. 209.60 crores

Equivalent Risk weighted Assets: Rs.2328.89 crores.

TABLE DF-10
INTEREST RATE RISK IN THE BANKING BOOK
(IRRBB)

Qualitative disclosures

The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behaviour of non-maturity deposits and frequency of IRRBB measurement.

Interest Rate Risk Management:

The process of Interest rate risk management by the bank involves determination of the business objectives, understanding the money markets and debt capital markets in which it operates and within the context of these parameters, recognizing and quantifying its appetite for market risk.

The Bank uses two techniques/approaches to manage interest rate risks inherent in the Balance sheet:

1) The first approach is the on-balance sheet Asset Liability Management (ALM) using the results of the Traditional Gap analysis. This involves careful balancing/rebalancing of assets and liabilities, based on the interest rate view of the bank, so as to eliminate the interest earnings at risk. This is achieved through an exercise towards minimizing exposure to risks by holding the appropriate combination (type and maturity) of assets and liabilities so as to meet certain objectives of the bank (such as achieving targeted earnings while simultaneously minimizing risk).

2) The second approach is off-balance sheet Asset Liability Management (ALM) through hedging. Hedging creates off-balance sheet positions. The OTC derivative product used by the Bank to hedge its trading portfolio and certain liabilities are the Interest Rate Swaps (IRS).

The Asset Liability Management techniques are deliberated by the Market Risk Management/Asset Liability Committee (MRMC/ALCO) in its fortnightly meetings, in addition to the discussions in the Balance Sheet Management Group meetings.

Analytics used by the Bank:

The Bank regularly analyses the Duration and Modified duration of Investment portfolio and rebalances the portfolio to minimize interest rate risk. This portfolio management technique is reviewed by the ALCO/MRMC fortnightly and the Board at monthly intervals.

The Interest Rate Sensitivity (IRS) Gap statement based on the 1999 Guidelines on Asset Liability Management is prepared on a fortnightly basis. The bucket-wise rate sensitive gaps as a percentage of the rate sensitive assets are monitored by the MRMC/ALCO, at fortnightly intervals, against the Board stipulated Tolerance limits.

In the event of the tolerance limit breach, the MRMC/ALCO ratifies the breach with or without directing the operational departments to restructure the maturity profile of the Balance sheet items. This is commensurate with the view on interest rates and the market scenario. While preparing the Interest Rate Sensitivity statement, the Bank takes into account the results of the behavioral analysis conducted on the following:

- (i) Volatile and Core portion of Savings deposits.
- (ii) Repricing character of CC/OD accounts.
- (iii) Embedded options in the investment portfolio.

Earnings at Risk (EaR):

The Earnings at Risk (EaR) due to parallel and non-parallel shifts in the yield curve on the interest rate sensitive asset liability gaps up to the 3 months, 6 months and 1 year horizon is calculated. This analysis is conducted on a fortnightly basis and placed before the MPMC/ALCO in the fortnightly meetings and later to the Board in its monthly meetings.

Based on the gap profile upto 1 year and the Bank's interest rate view, the EaR amount that should trigger on or off balance sheet hedging strategies, is tracked on a fortnightly basis.

Quantitative disclosure:

(b) The increase (decline) in earnings and economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring IRRBB, broken down by currency (where the turnover is more than 5% of the total turnover):

Earnings at Risk (EaR):

For a 100 basis point assumed increase in interest rates, the impact on NII for a 1 year gap horizon	Rs.83.01 crores
--	------------------------

The Bank has fixed the tolerance limit at Rs.110 crore. Hence, the above impact of EaR (83.01) is within the limit.

Economic value approach:

The economic value, i.e. impact on Capital Fund due to change in interest rate by 200 bps is assessed through Modified Duration Gap method. As a prudential measure, limits have been fixed for net duration gap of the assets and liabilities and the same is monitored at regular intervals.
